

# How We Work

Interested in working with us? Here's our workflow for van conversions

## 1. RESEARCH

Goal: get clear about what you want

Use our 8 infosheets and checklists to decide which features you want and need in your van

Study other people's builds on social media and take note of designs that inspire you

Once you're 75%+ certain about the features you want, fill out our Conversion Worksheet

## 2. ESTIMATE

Goal: know how much your build will cost

Next, we'll get on the phone to meet you, get more info, and talk about design ideas

We'll ensure we're on the same page about features, timeline, availability, and design

We give you an estimate for your build. Review it and ask any questions you have to decide if Levity Vans is right for you

## 3. DEPOSIT

Goal: secure your place on our calendar

Send us a \$2,000 nonrefundable deposit to hold your place on our calendar

A month before your start date, we'll invoice your first payment for 50% of your estimate and start ordering parts

If you forfeit your place on our calendar we may, at our discretion, offer you a credit to apply to a future build

## 4. CONVERSION

Goal: create your dream adventure vehicle!

Drop your van off at our shop in Santa Cruz. We send weekly updates (with photos) about your van's progress

Make payments according to our job agreement, typically 25% midway through and the remainder upon completion

Once your van is complete, inspect it at our shop, make your final payment, and start your adventure!
